

# Your guide to chromatography resins

Pure proteins today. Powerful results tomorrow.

Click on the chromatography method you are interested in to jump to the corresponding selection guide.

**AC**  
Affinity chromatography

**SEC**  
Size exclusion chromatography

**IEX**  
Ion exchange chromatography

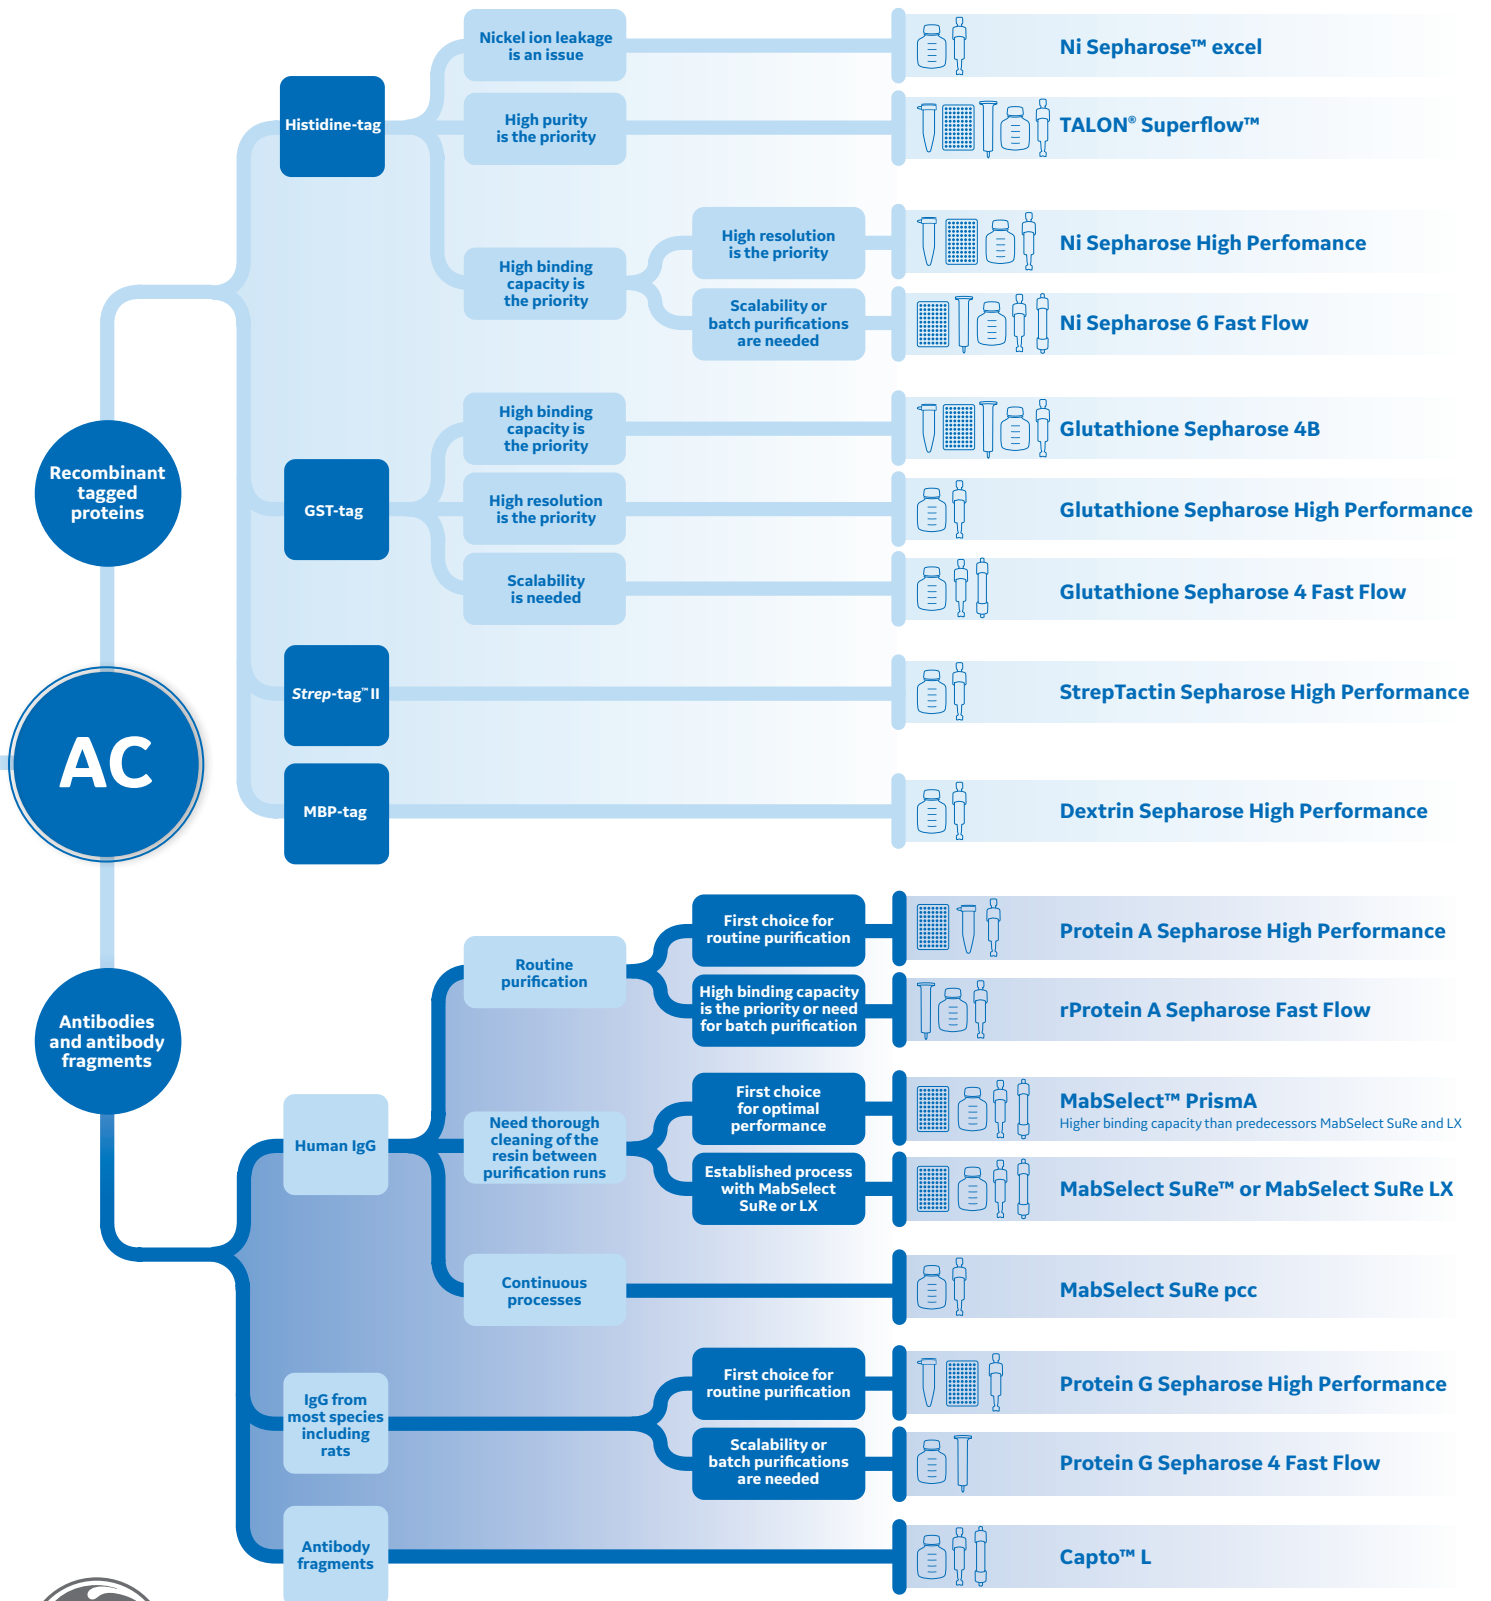

## GE format guide

Type of purification	Manual purification			Manual or system purification		System purification
<b>Format</b>	Spin columns	96-well plates	Gravity flow columns	Bottles of chromatography media (resins)	Small-column cartridges	Other columns
<b>Format name</b>	SpinTrap™	MultiTrap™	GraviTrap™, MiniTrap™, MidiTrap™, PD10	Lab pack	HiTrap™	HiScreen™, HiPrep™, HiLoad™, RESOURCE™, Tricorn™, and Precision
<b>Use</b>	Screening and quick desalting of small sample quantities using a benchtop centrifuge	High-throughput screening and small scale purification using centrifuge or vacuum equipment	Simple one-step purification of proteins or sample desalting without the need for equipment	Batch purification and self-packing	Easy to use with a syringe, peristaltic pump, or a chromatography system	Larger scale or high performance applications
